

HUNTSTOWN BRICK

ROADSTONE SUSTAINABLE CONCRETE BRICK

ENVIRONMENTALLY SUSTAINABLE

- **Huntstown Brick has been manufactured in Dublin since 1975, using local aggregates from our Huntstown quarry in Finglas.**
- **Huntstown brick manufacturing plant has achieved the ISO 50001 energy standard and Roadstone is compliant with the EU Energy Directive ensuring energy efficiency in the production of Huntstown brick.**
- **Huntstown brick manufacturing plant is only 12km from Dublin city centre therefore no long haulage required.**
- **Huntstown brick produced to ISO1345 using recycled water.**
- **Huntstown brick is a fully recyclable product.**

SOCIALLY SUSTAINABLE

- **Dublin produced brick from Roadstone's brick plant in Finglas, supporting local jobs and business (200 Roadstone employees in Dublin).**

ECONOMICALLY SUSTAINABLE

- **Significant savings can be accrued using Huntstown brick as they offer a cheaper alternative to most other brick types.**

Huntstown brick is produced at the Roadstone masonry plant in Finglas. 16 different colours are available in smooth, rumbled and split textured brick.
