# **Roadstone - leading supplier of building materials**

## **Dry Hip System**

The Roadstone Dry Hip System provides a neat and attractive finish to the hip line without the use of mortar. The hip tiles are secured to the appropriate size hip batten, using stainless steel screwnails which give exceptional resistance to wind uplift. The system is quick and easy to install and is maintenance-free.

## **Key features and benefits**

- Provides a clean clear appearance to the finished hip line
- Provides secure mechanical fixing of hip tiles
- No mortar required
- Quick and easy to install with no concern for impending poor weather
- Maintenance-free with no danger of mortar failure
- Complies with requirements of IS/EN 490:2005 Concrete Roofing Tiles and Fittings
- Suitable for use with Roadstone 1/3 Round or Universal Angle Hip Tiles

## **Technical specification**

CRH Roof Tiles are manufactured to exacting standards at our various Roof Tile Plants. Manufacturing is in compliance with I.S. E.N. 490: 2005 Concrete Roofing Tiles & Fittings and should be fixed in accordance with the Irish Code of Practice for Slating and Tiling I.C.P. 2:2002.
