# **Roadstone - leading supplier of building materials**

## **Durapatch**

Roadstone DURAPATCH™ is a cold applied instant and permanent asphalt repair material that will perform similar to hot laid macadam. DURAPATCH™ is manufactured using high Polished Stone Value (PSV) aggregates and a specially modified bitumen. DURAPATCH™ incorporates MACFIX® Licensed Technology and will provide an immediate permanent repair solution to potholes, utility cuts, patches, small road repairs etc.

## **Key features and benefits**

- Ready to use, no heating or mixing required
- Can be opened to traffic immediately
- Can be used in wet and dry conditions
- Available in tubs, bags and bulk
- Available in a range of mixes
- No tack coat or over banding required
- Reduced traffic disruption due to quick installation
- 100% Recyclable

## **Technical specification**

Produced in accordance with

- IS EN 13108-1 Asphaltic Concrete
- NSAI's Standard Recommendation (SR) 28
- IS EN 13108-20: Type Testing and IS EN13108-21: Factory Production Control
