Partial fill insulation to be secured firmly against the innerleaf of the cavity wall. If using partial fill insulation, tuck compressible insulation down into the head of the cavity.

Ensure that the full depth of insulation between and over joists abuts the eaves insulation.

Roadstone Thermal Liteblock top row capping block (440 x 215 x 100)

Line of Air Barrier;
Refer to ACD’s for the Barrier Checklist and Ensure Requirements are met

Partial fill insulation to be secured firmly against the innerleaf of the cavity wall. If using partial fill insulation, tuck compressible insulation down into the head of the cavity.

Partial fill Cavity Wall
U-Values vary, see appendix D of TGD part L 2011.
